## *INDEPENDENT AUDITOR'S REPORT*

To the Honorable Mayor and  
Members of the City Council  
City of Lexington, Texas:

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, and each major fund of the City of Lexington, Texas (the "City"), as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

### *Management's Responsibility for the Financial Statements*

The City's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### *Auditor's Responsibility*

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### *Opinion*

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, and each major fund of the City as of September 30, 2021 and the respective changes in financial position and, where applicable, cash flows thereof for the period then ended in accordance with accounting principles generally accepted in the United States of America.

### *Emphasis of Matter*

As discussed in Note V.E to the financial statements, the City restated its beginning net position/fund balance in governmental activities and the general fund due to corrections to accrued expenses. Our opinion is not modified with respect to this matter.

### *Other Matters*

#### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule of changes in net pension liability and related ratios, schedule of employer contributions to pension plan, and budgetary comparison information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements.

We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

AND ANALYSIS***

(This page intentionally left blank.)

# City of Lexington, Texas

## MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)

### September 30, 2021

The purpose of the Management's Discussion and Analysis (the "MD&A") is to give the readers an objective and easily readable analysis of the City of Lexington's financial activities for the year ending September 30, 2021. The analysis is based on currently known facts, decisions, or economic conditions. It presents short and long-term analysis of the City's activities, compares current-year results with those of the prior year, and discusses the positive and negative aspects of that comparison. GASB Statement No. 34 establishes the content of the minimum requirements for the MD&A. Please read the MD&A in conjunction with the City's financial statements, which follow this section.

The annual financial report is presented as compliant with the financial reporting model in effect pursuant to GASB Statement No. 34. This financial reporting model requires governments to present certain basic financial statements as well as an MD&A and certain other Required Supplementary Information (RSI). The basic financial statements include (1) government-wide financial statements, (2) individual fund financial statements, and (3) notes to the financial statements.

#### **Financial Highlights**

- The City's total combined net position was \$7,220,077 at September 30, 2021. Of this, \$1,895,538 (unrestricted net position) may be used to meet the City's ongoing obligations to its citizens and creditors.
- At the close of the current fiscal year, the City's governmental fund reported a fund balance of \$277,300, an increase of \$253,831.
- As of the end of the year, the unassigned fund balance of the general fund was \$219,861 or 31% of total general fund expenditures.
- The City had an overall increase in net position of \$714,739, which is primarily due to the primary government's revenues exceeding current year expenses.
- The City closed the year with a net pension liability of \$15,385.

#### **Government-Wide Statements**

The government-wide statements report information for the City as a whole. These statements include transactions and balances relating to all assets, including infrastructure capital assets. These statements are designed to provide information about cost of services, operating results, and financial position of the City as an economic entity. The Statement of Net Position and the Statement of Activities, which appear first in the City's financial statements, report information on the City's activities that enable the reader to understand the financial condition of the City of Lexington. These statements are prepared using the *accrual basis of accounting*, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account even if cash has not yet changed hands.

# City of Lexington, Texas

## MANAGEMENT'S DISCUSSION AND ANALYSIS, *Continued*

### September 30, 2021

The Statement of Net Position presents information on all of the City of Lexington's assets and liabilities. The difference between the two is reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City of Lexington is improving or deteriorating. Other non-financial factors, such as the City's property tax base and the condition of the City's infrastructure, need to be considered in order to assess the overall health of the City.

The Statement of Activities presents information showing how the City's net position changed during the most recent year. All changes in the net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows – the accrual method rather than modified accrual that is used in the fund level statements.

The Statement of Net Position and the Statement of Activities divide the City into two classes of activities:

1. Governmental Activities - Most of the City's basic services are reported here, including general government, garbage, public safety (police and fire); parks and recreation, and public works. Sales tax, property tax, franchise taxes, municipal court fines and permit fees finance most of these activities.
2. Business-Type Activities - Services involving a fee for those services. These services, the City's electricity and water distribution and wastewater collection/treatment services are reported here.

## FUND FINANCIAL STATEMENTS

Funds may be considered as operating companies of the parent corporation, which is the City of Lexington. They are usually segregated for specific activities or objectives. The City of Lexington uses fund accounting to ensure and demonstrate compliance with finance-related legal reporting requirements. The two categories of City funds are governmental and proprietary.

### Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as *on balances of spendable resources* available at the end of the year. Such information may be useful in evaluating the City's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing

**City of Lexington, Texas**  
*MANAGEMENT'S DISCUSSION AND ANALYSIS, Continued*  
September 30, 2021

decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City of Lexington maintains one governmental fund. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balance. The general fund is considered to be a major fund.

The City of Lexington adopts an annual appropriated budget for its general and utility funds. A budgetary comparison schedule has been provided to demonstrate compliance with the general fund budget.

**Proprietary Funds**

The City maintains one type of proprietary fund. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its electricity and water distribution, wastewater collection/treatment, and water construction operations. The proprietary fund financial statements provide separate information for the electric and water distribution and wastewater collection/treatment funds. The basic proprietary fund financial statements can be found in the basic financial statements of this report.

**Component Unit**

The City maintains the accounting and financial statements for one component unit. The Lexington Economic Development Corporation is a discretely presented component unit displayed on the government-wide financial statements.

**Notes to Financial Statements**

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes are the last section of the basic financial statements.

**Other Information**

In addition to the basic financial statements, MD&A, and accompanying notes, this report also presents certain Required Supplementary Information (RSI). The RSI that GASB Statement No. 34 requires includes a budgetary comparison schedule for the general fund and schedule of funding progress for Texas Municipal Retirement System. RSI can be found after the basic financial statements.

**City of Lexington, Texas**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS, Continued**  
**September 30, 2021**

**GOVERNMENT-WIDE FINANCIAL ANALYSIS**

As noted previously, net position may serve over time as a useful indicator of the City's financial position. For the City of Lexington, assets exceeded liabilities by \$7,220,077 as of September 30, 2021, in the primary government.

The largest portion of the City's net position, \$5,267,100, reflects its investments in capital assets (e.g., land, city hall, police station, streets, and drainage systems, as well as the public works facilities), less any debt used to acquire those assets that are still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the assets themselves cannot be used to liquidate these liabilities.

**Statement of Net Position:**

The following table reflects the condensed Statement of Net Position:

	Governmental Activities		Business-Type Activities		Total Primary Government	
	2021	2020	2021	2020	2021	2020
Current and other assets	\$ 341,230	\$ 125,865	\$ 2,097,407	\$ 1,918,707	\$ 2,438,637	\$ 2,044,572
Capital assets, net	1,293,813	1,399,946	4,813,127	4,873,958	6,106,940	6,273,904
<b>Total Assets</b>	1,635,043	1,525,811	6,910,534	6,792,665	8,545,577	8,318,476
<b>Deferred Outflows</b>	21,279	29,986	18,130	16,868	39,409	46,854
Other liabilities	59,005	94,765	325,675	426,397	384,680	521,162
Long-term liabilities	118,147	277,932	737,078	1,005,437	855,225	1,283,369
<b>Total Liabilities</b>	177,152	372,697	1,062,753	1,431,834	1,239,905	1,804,531
<b>Deferred Inflows</b>	67,502	35,495	57,502	19,966	125,004	55,461
Net Position:						
Net investment in capital assets	1,183,973	1,220,569	4,083,127	3,865,049	5,267,100	5,085,618
Restricted	57,439	49,226	-	-	57,439	49,226
Unrestricted	170,256	(122,190)	1,725,282	1,492,684	1,895,538	1,370,494
<b>Total Net Position</b>	\$ 1,411,668	\$ 1,147,605	\$ 5,808,409	\$ 5,357,733	\$ 7,220,077	\$ 6,505,338

Current and other assets for the primary government increased primarily due to greater cash on hand resulting from increased revenues during the year while maintaining expenses under budget. Long-term liabilities for the primary government decreased due to principal payments made on outstanding debt during the year.

# City of Lexington, Texas

## MANAGEMENT'S DISCUSSION AND ANALYSIS, *Continued*

### September 30, 2021

Graphic presentations of selected data from the summary tables are displayed below to assist in the analysis of the City's activities.

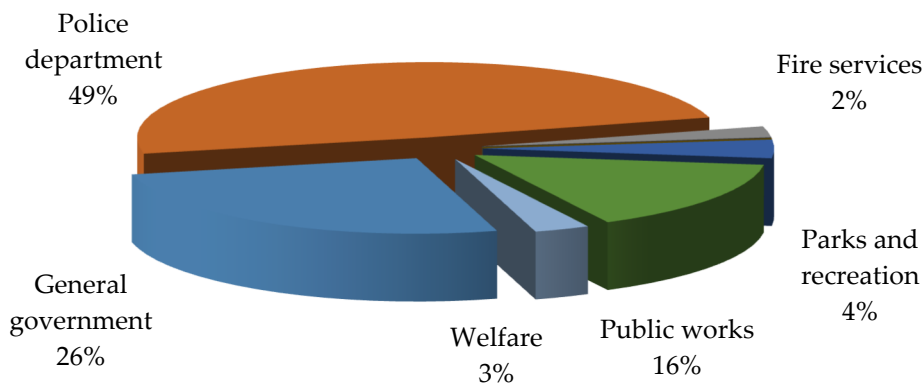

#### Governmental Activities - Revenues

For the year ended September 30, 2021, revenues from governmental activities totaled \$964,390. Sales tax and property tax are the City's largest revenue sources. Sales taxes increased by \$44,624 due to economic growth fueled by local purchases. Property taxes increased by \$20,409 due to greater appraised property values. Franchise taxes decreased by \$10,507 resulting from less revenues received from gas utilities. Grants and contributions increased by \$186,872 primarily due to nonrecurring grants received through the CARES Act in the current year. Charges for services decreased by \$18,154 primarily as a result of previously delayed court as a result of COVID being held in the previous year, resulting in greater court revenue received in the prior year. Other revenues increased by \$11,548 primarily due to nonrecurring proceeds received from the volunteer EMS as a result of dissolving. The funds were given to the police department. All other revenues remained relatively consistent with the previous year.

This graph shows the governmental function expenses of the City:

#### Governmental Activities - Expenses

For the year ended September 30, 2021, expenses for governmental activities totaled \$694,630. This represents a decrease of \$57,149 or 8% from the prior year. The City's largest functional expense is the

**City of Lexington, Texas**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS, Continued**  
**September 30, 2021**

police department of \$337,801, which primarily consists of salaries and benefits. Expenses for the police department decreased by \$40,210 or 11%, which is primarily due to a reduction in police personnel expenses in the current year, in addition to the impact of the decrease in the City's net pension liability. Fire service expenses decreased by \$24,011 or 60% due to nonrecurring fire building maintenance expenses in the prior year. Parks and recreation expenses increased by \$9,079 or 50% primarily due to nonrecurring repairs and maintenance expenses in the current year. Welfare expenses increased by \$10,625 or 101% due to fewer contributions from the ambulance escrow fund in the current year. All other departmental expenses remained relatively consistent with the previous year.

Business-type activities are shown comparing operating costs to revenues generated by related services.

**Business-Type Activities - Revenues and Expenses**

For the year ended September 30, 2021, charges for services by business-type activities totaled \$2,214,623, which represents an increase of \$168,716 or 8% from the previous year. The increase was primarily a result of greater garbage and electricity service revenues resulting from increased rates and consumption during the year. Total expenses increased by \$90,965 or 5%, which is primarily due to greater electricity purchases and garbage pickup service expenses resulting from an increase in the City's customer base over the course of the year.

**FINANCIAL ANALYSIS OF THE CITY'S FUNDS**

As noted earlier, fund accounting is used to demonstrate and ensure compliance with finance-related legal requirements.

Governmental Funds - The focus of the City's governmental funds is to provide information of near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unreserved fund balance may serve as a useful measure of the City's net resources available for spending at the end of the year.

**City of Lexington, Texas**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS, *Continued***  
**September 30, 2021**

As of the end of the year the general fund reflected a total fund balance of \$277,300. Unassigned fund balance totaled \$219,861 as of year-end.

There was an increase in the general fund balance of \$253,831 from the prior year due to greater than anticipated revenues and less than anticipated expenditures.

Proprietary Funds - The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

### **GENERAL FUND BUDGETARY HIGHLIGHTS**

There was a total positive budget variance of \$253,831 in the general fund. Franchise and local taxes was the only revenue category below anticipated revenues. Total expenditures were less than anticipated expenditures by \$215,517. Expenditures exceeded appropriations at the legal level of control for parks and recreation and transfers out.

### **CAPITAL ASSETS**

As of the end of the year, the City's governmental activities funds had invested \$1,293,813 in a variety of capital assets and infrastructure, net of accumulated depreciation. Depreciation is included with the governmental capital assets as required by GASB Statement No. 34. The City's business-type activities funds had invested \$4,813,127 in a variety of capital assets and infrastructure, net of accumulated depreciation.

Major capital asset events during the current year include the following:

- New street improvements totaling \$13,200.
- Purchase of Ford truck for code enforcement department for \$30,263.
- Sewer grant project investments totaling \$160,705.

More detailed information about the City's capital assets is presented in note IV. C to the financial statements.

### **LONG-TERM DEBT**

At the end of the current year, the City had total bonds outstanding of \$730,000. During the year, the City had a reduction in the bonds outstanding of \$220,000. During the year, the City made principal payments on outstanding notes totaling \$69,537. The City had total notes payable outstanding of \$109,840 at year end. More detailed information about the City's long-term liabilities is presented in note IV. D to the financial statements.

**City of Lexington, Texas**  
*MANAGEMENT'S DISCUSSION AND ANALYSIS, Continued*  
September 30, 2021

**ECONOMIC FACTORS AND NEXT YEAR'S BUDGET**

The Mayor and City Council are committed to maintaining and improving the overall wellbeing of the City of Lexington and improving services provided to their public citizens. The City is budgeting conservatively for the upcoming year and planning to maintain similar services.

**CONTACTING THE CITY'S FINANCIAL MANAGEMENT**

This financial report is designed to provide a general overview of the City of Lexington's finances for all those with an interest in the City's finances. Questions concerning this report or requests for additional financial information should be directed to the City Secretary at P.O. Box 56, Lexington, TX 78947.

## RECONCILIATION OF THE BALANCE SHEET TO THE STATEMENT OF NET POSITION GOVERNMENTAL FUNDS

September 30, 2021

<b>Fund Balances - Total Governmental Funds</b>	<b>\$ 277,300</b>
Adjustments for the Statement of Net Position:	
Capital assets used in governmental activities are not current financial resources and, therefore, not reported in the governmental funds.	
Capital assets - non-depreciable	347,092
Capital assets - net depreciable	946,721
Other long-term assets are not available to pay for current-period expenditures and, therefore, are reported as unavailable revenue in the funds	
	22,395
Deferred outflows of resources, represent a consumption of net position that applies to a future period(s) and is not recognized as an outflow of resources (expenditure) until then.	
Pension contributions	19,706
Pension assumption changes	1,573
Deferred (inflows) of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenues) until then.	
Pension investment returns	(27,429)
Pension difference in experience	(40,073)
Some liabilities, including bonds payable, are not reported as liabilities in the governmental funds.	
Accrued interest	(8,936)
Non-current liabilities due in one year	(72,715)
Non-current liabilities due in more than one year	(37,125)
Compensated absences	(8,534)
Net pension liability	(8,307)
<b>Net Position of Governmental Activities</b>	<b>\$ 1,411,668</b>

## RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

For the Year Ended September 30, 2021

Amounts reported for governmental activities in the statement of activities are different because:

Net changes in fund balances - total governmental funds	\$ 253,831
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.	
Capital outlay	13,200
Depreciation expense	(119,333)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	(4,193)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	
Compensated absences	7,024
Accrued interest	(5,537)
Pension expense	49,534
The issuance of long-term debt (e.g., bonds, notes, leases, certificates of obligation) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when they are first issued; whereas, these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	
Principal payments	69,537
<b>Change in Net Position of Governmental Activities</b>	<u>\$ 264,063</u>

See Notes to Financial Statements.

(This page intentionally left blank.)

**City of Lexington, Texas**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**September 30, 2021**

**I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**A. Description of government-wide financial statements**

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. All fiduciary activities are reported only in the fund financial statements. *Governmental activities*, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges to external customers for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

**B. Reporting Entity**

The City of Lexington, Texas (the "City") was incorporated in May of 1917 and operates under a Mayor form of government. The City provides: police; code enforcement; public works; street repair and maintenance; health and social services; parks; general administrative services; electricity; water; wastewater; and sanitation.

The City is an independent political subdivision of the State of Texas governed by an elected council and a mayor and is considered a primary government. As required by generally accepted accounting principles, these basic financial statements have been prepared based on considerations regarding the potential for inclusion of other entities, organizations, or functions as part of the City's financial reporting entity. The Lexington Economic Development Corporation, although legally separate, is considered part of the reporting entity. No other entities have been included in the City's reporting entity. Additionally, as the City is considered a primary government for financial reporting purposes, its activities are not considered a part of any other governmental or other type of reporting entity.

Considerations regarding the potential for inclusion of other entities, organizations or functions in the City's financial reporting entity are based on criteria prescribed by generally accepted accounting principles. These same criteria are evaluated in considering whether the City is a part of any other governmental or other type of reporting entity. The overriding elements associated with prescribed criteria considered in determining that the City's financial reporting entity status is that of a primary government are that it has a separately elected governing body; it is legally separate; and is fiscally independent of other state and local governments. Additionally prescribed criteria under generally accepted accounting principles include considerations pertaining to organizations for which the primary government is financially accountable, and considerations pertaining to organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

**City of Lexington, Texas**  
*NOTES TO THE FINANCIAL STATEMENTS, Continued*  
September 30, 2021

**Discretely Presented Component Unit**

**Lexington Economic Development Corporation**

The Lexington Economic Development Corporation ("LEDC") is governed by a board appointed by the City Council of the City of Lexington and any of whom can be removed from office by the City Council at its will. The LEDC was incorporated in the state of Texas as a non-profit industrial development corporation under Section 4A of the Development Corporation Act of 1979, for the purpose of the promotion and development of new and expanded business enterprises and to provide and encourage employment in the furtherance of the public welfare. The LEDC is discretely presented as it does not have the same governing body, and does not provide services entirely, or almost entirely to the city.

**C. Basis of presentation – government-wide financial statements**

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

**D. Basis of presentation – fund financial statements**

The fund financial statements provide information about the government's funds, including its fiduciary funds. Separate statements for each fund category—governmental, and fiduciary—are presented. The emphasis of fund financial statements is on major governmental, each displayed in a separate column. All remaining governmental are aggregated and reported as nonmajor funds. Major individual governmental are reported as separate columns in the fund financial statements.

The government reports the following as a major governmental fund:

The *general fund* is the government's primary operating fund. It accounts for all financial resources of the general government. The principal sources of revenues include local property taxes, sales and franchise taxes, licenses and permits, fines and forfeitures, and charges for services. Expenditures include general government, public safety, sanitation, parks and recreation and public works.

The government reports the following major enterprise fund:

The *municipal utility enterprise fund* accounts for the operation of the City's electricity, water and sewer system for which various fees are charged to residential and commercial customers for goods and services. The activity is financed with debt secured by a pledge of the net revenues and has the requirement that the cost of providing services, including capital costs, be recovered by user fees and charges.

# City of Lexington, Texas

## NOTES TO THE FINANCIAL STATEMENTS, *Continued*

September 30, 2021

During the course of operations the government has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities are eliminated so that only the net amount is included as internal balances in the governmental activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column.

### **E. Measurement focus and basis of accounting**

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, sales taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements

# City of Lexington, Texas

## NOTES TO THE FINANCIAL STATEMENTS, *Continued*

September 30, 2021

are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). All other revenue items are considered to be measurable and available only when cash is received by the government.

The proprietary fund is reported using the *economic resources measurement focus* and the *accrual basis of accounting*.

### **F. Budgetary information**

#### **1. *Budgetary basis of accounting***

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the general fund.

The appropriated budget is prepared by fund, function, and department. Transfers of appropriations between departments require the approval of the city council. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the department level.

Appropriations in all budgeted funds lapse at the end of the fiscal year. While all appropriations lapse at year end, surpluses may be re-appropriated and become part of the subsequent year's budget pursuant to state regulations.

### **G. Assets, liabilities, deferred inflows/outflows, and net position/fund balance**

#### **1. *Cash and cash equivalents***

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

#### **2. *Investments***

Investments for the government are reported at fair value (generally based on quoted market prices.) Investment positions in external investment pools that are operated in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940, such as TexStar, are reported using the pools' share price.

**City of Lexington, Texas**  
*NOTES TO THE FINANCIAL STATEMENTS, Continued*  
September 30, 2021

The Local Government Code of Texas authorizes the City to invest in:

- (1) obligations of the United States or its agencies and instrumentalities;
- (2) direct obligations of the State of Texas or its agencies and instrumentalities;
- (3) collateral mortgage obligations although significantly limited;
- (4) other obligations, the principal and interest on which are unconditionally guaranteed or insured or backed by the full faith and credit of the State of Texas or the United States or their respective agencies and instrumentalities;
- (5) obligations of state, agencies, counties, cities, and other political subdivisions of any state rated as to investment quality by a nationally recognized investment rating firm of not less than A or its equivalent;
- (6) certificates of deposit issued by state and national banks or savings and loan domiciled in Texas which are:
  - (a) guaranteed or insured by the Federal Deposit Insurance Corporation, or its successor;  
or
  - (b) secured by obligations of paragraphs (1) to (5) above and that have a market value of not less than the principal amount of the certificates but excluding certain mortgage-backed securities;
  - (c) fully collateralized repurchase agreements, bankers' acceptances, commercial paper, mutual funds, guaranteed investment contracts, and investment pools all of which are required to meet certain restrictive criteria.

**3. *Inventory***

The costs of governmental fund type inventories are recorded as expenditures when the related liability is incurred, (i.e., the purchase method). The inventories are valued at the lower of cost or market using the first-in/first-out method. Certain payments to vendors reflect costs applicable to future accounting periods (prepaid expenditures) are recognized as expenditures when utilized.

**4. *Capital Assets***

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g. roads, bridges, sidewalks, and similar items), are reported in the applicable governmental column in the government-wide financial statements. Capital assets, except for infrastructure assets, are

# City of Lexington, Texas

## NOTES TO THE FINANCIAL STATEMENTS, *Continued*

September 30, 2021

defined by the government as assets with an initial, individual cost of more than \$3,000 and an estimated useful life in excess of two years.

In the case of the initial capitalization of general infrastructure assets (i.e., those reported by governmental activities), the government chose to include all such items regardless of their acquisition date or amount. The government was able to estimate the historical cost for the initial reporting of these assets through back trending (i.e., estimating the current replacement cost of the infrastructure to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year). As the government constructs or acquires additional capital assets each period, including infrastructure assets, they are capitalized and reported at historical cost. The reported value excludes normal maintenance and repairs which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or increase its estimated useful life. Donated capital assets are recorded at their estimated fair value at the date of donation.

Land and construction in progress are not depreciated. The other property, plant, equipment, and infrastructure of the primary government are depreciated using the straight-line method over the following estimated useful lives.

<u>Asset Description</u>	<u>Estimated Useful Lives</u>
Infrastructure	40-50
Buildings & improvements	20-40
Machinery & equipment	5-10

### 5. *Deferred outflows/inflows of resources*

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/ expenditure) until then. An example is a deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government has only one type of item, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable

**City of Lexington, Texas**  
*NOTES TO THE FINANCIAL STATEMENTS, Continued*  
September 30, 2021

revenues from one source: property taxes. This amount is deferred and recognized as an inflow of resources in the period that the amounts become available.

**6. *Net position flow assumption***

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide statements, a flow assumption must be made about the order in which the resources are considered to be applied.

It is the government’s policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

**7. *Fund balance flow assumptions***

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the government’s policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

**8. *Fund balance policies***

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The government itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the government’s highest level of decision-making authority. The city council is the highest level of decision-making authority for the government that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. Unlike commitments, assignments generally only exist temporarily. In other words, an

# City of Lexington, Texas

## NOTES TO THE FINANCIAL STATEMENTS, *Continued*

September 30, 2021

additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

The nonspendable fund balance classification includes amounts that cannot be spent because they are either (a) not in a spendable form or (b) legally or contractually required to be maintained intact.

The “not in spendable form” criterion includes resources that cannot ever be spent because of their form (e.g., inventories and prepaid insurance) or cannot currently be spent because of their form.

The city did not have any nonspendable amounts due to legal or contractual requirements at year end.

The restricted fund balance classification represents amounts that are legally restricted for specific future use.

### 9. *Long-Term obligations*

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. The long-term debt consists primarily of bonds payable and accrued compensated absences.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements until due. The debt proceeds are reported as other financing sources, net of the applicable premium or discount and payments of principal and interest reported as expenditures. In the governmental fund types, issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures. However, claims and judgments paid from governmental funds are reported as a liability in the fund financial statements only for the portion expected to be financed from expendable available financial resources.

Long-term debt and other obligations, financed by proprietary funds, are reported as liabilities in the appropriate funds. For proprietary fund types, bond premiums, discounts and issuance costs are deferred and amortized over the life of the bonds using the effective interest method, if material. Bonds payable are reported net of the applicable bond premium or discount. Issuance costs are expensed as incurred.

Assets acquired under the terms of capital leases are recorded as liabilities and capitalized in the government-wide financial statements at the present value of net minimum lease payments at inception of the lease. In the year of acquisition, capital lease transactions are recorded as other financing sources and as capital outlay expenditures in the general fund.

**City of Lexington, Texas**  
*NOTES TO THE FINANCIAL STATEMENTS, Continued*  
September 30, 2021

Lease payments representing both principal and interest are recorded as expenditures in the general fund upon payment with an appropriate reduction of principal recorded in the government-wide financial statements.

**10. Pensions**

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the Fiduciary Net Position of the Texas Municipal Retirement System (TMRS) and additions to/deductions from TMRS's Fiduciary Net Position have been determined on the same basis as they are reported by TMRS. For this purpose, plan contributions are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**11. Fair Value**

The City has applied Governmental Accounting Standards Board ("GASB") Statement No. 72, Fair Value Measurement and Application. GASB Statement No. 72 provides guidance for determining a fair value measurement for reporting purposes and applying fair value to certain investments and disclosures related to all fair value measurements.

**H. Revenues and expenditures/expenses**

**1. Program revenues**

Amounts reported as *program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

**2. Property taxes**

Property taxes attach as an enforceable lien on real property and are levied as of October 1st. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Uncollected amounts at year end are reported as deferred revenue. Delinquent property taxes collected within 60 days subsequent to year end were not considered material.

**City of Lexington, Texas**  
*NOTES TO THE FINANCIAL STATEMENTS, Continued*  
September 30, 2021

**3. *Compensated absences***

It is the government's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the government does not have a policy to pay any amounts when employees separate from service with the government. All vacation pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in government-wide financial statements.

**4. *Proprietary funds operating and nonoperating revenues and expenses***

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the utility fund are charges to customers for sales and services. The utility fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

**II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS**

**A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position.**

The governmental fund balance sheet includes reconciliation between fund balance-total governmental funds and net position-governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that long-term liabilities, including bonds, are not due and payable in the current period and, therefore, are not reported in the funds. Reconciling items have been presented on the balance sheet of governmental funds in the basic financial statements.

**B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities.**

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances – total governmental funds and changes in net position of governmental states that, “the issuance of long-term debt (e.g., bonds) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.” A reconciliation has been presented in the basic financial statements.

**City of Lexington, Texas**  
*NOTES TO THE FINANCIAL STATEMENTS, Continued*  
September 30, 2021

**III. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY**

Annual budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP) for the general fund. The original budget is adopted by the City Council prior to the beginning of the year. The legal level of control is the department level. No funds can be transferred or added to a budgeted item without Council approval. Appropriations lapse at the end of the year.

**A. Expenditures Over Appropriations**

For the year ended September 30, 2021, expenditures exceeded appropriations at the legal level of control for the following departments and amounts:

<u>General Fund</u>	
Parks and recreation	\$ 1,797
Transfers (out)	5,697

**IV. DETAILED NOTES ON ALL FUNDS**

**A. Deposits and Investments**

As of September 30, 2021, the primary government and the City's discretely presented component unit had no investment balances.

**City of Lexington, Texas**

**D. Long-term Debt**

The following is a summary of changes in the City's total governmental long-term liabilities for the year ended. The City uses the general fund to liquidate governmental long-term liabilities.

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Reductions</u>	<u>Ending Balance</u>	<u>Amounts Due within One Year</u>
<b>Governmental Activities:</b>					
Notes payable	\$ 179,377	\$ -	\$ (69,537)	\$ 109,840	\$ 72,715
<b>Total Governmental Activities</b>	<u>\$ 179,377</u>	<u>\$ -</u>	<u>\$ (69,537)</u>	<u>\$ 109,840</u>	<u>\$ 72,715</u>
<b>Long-term liabilities due in more than one year</b>				<u>\$ 37,125</u>	
<b>Business-Type Activities:</b>					
Certificates of obligation	\$ 950,000	\$ -	\$ (220,000)	\$ 730,000	\$ 160,000
<b>Total Business-Type Activities</b>	<u>\$ 950,000</u>	<u>\$ -</u>	<u>\$ (220,000)</u>	<u>\$ 730,000</u>	<u>\$ 160,000</u>
<b>Long-term liabilities due in more than one year</b>				<u>\$ 570,000</u>	

Long-term liabilities applicable to the City's governmental activities are not due and payable in the current period and accordingly, are not reported as fund liabilities in the governmental funds. Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due.

Long-term bonds at year end were comprised of the following debt issues:

<u>Description</u>	<u>Interest Rates</u>	<u>Original Balance</u>	<u>Current Balance</u>
<b>Business-type Activities:</b>			
Certificate of Obligation, series 2008	4.09%	\$ 1,500,000	\$ 55,000
Certificate of Obligation, series 2012	2.96%	1,500,000	675,000
<b>Total Business-Type Activities</b>		<u>\$ 3,000,000</u>	<u>\$ 730,000</u>

**City of Lexington, Texas**  
**NOTES TO THE FINANCIAL STATEMENTS, Continued**  
**September 30, 2021**

The annual requirements to amortize business-type activities debt issues outstanding at year ending were as follows:

Year ending September 30,	Certificates of Obligation	
	Principal	Interest
2022	\$ 160,000	\$ 20,045
2023	110,000	15,218
2024	110,000	11,968
2025	115,000	8,643
2026	115,000	5,245
After Preceding 5 Years	120,000	1,773
<b>Total</b>	<b>\$ 730,000</b>	<b>\$ 62,892</b>

The annual requirements to amortize governmental activities notes payable outstanding at year ending were as follows:

Year ending September 30,	Notes Payable	
	Principal	Interest
2022	\$ 72,715	\$ 4,823
2023	33,030	1,485
2024	4,095	-
<b>Total</b>	<b>\$ 109,840</b>	<b>\$ 6,308</b>

In 2018 the City purchased five police vehicles through lease financing with Ford Motor Company in the amount of \$196,652 and interest of 4.70%. The City's annual principal and interest payments are \$43,023. As of September 30, 2021, the net book value of the asset is \$54,079.

In 2018 the City purchased law enforcement radio hardware through a lease agreement with Government Capital Corporation in the amount of \$89,040 and interest of 4.05%. The City's annual principal and interest payments are \$20,029. As of September 30, 2021, the net book value of the asset is \$23,744.

In 2018 the City purchased new police citation software through a note payable with Kansas State Bank in the amount of \$42,283 and interest of 7.28%. The City's annual principal and interest payments are \$10,390. As of September 30, 2021, the net book value of the asset is \$11,275.

In 2020 the City purchased new police body cameras and tasers through a note payable with Axon Enterprise, Inc. in the amount of \$22,735 and interest of 0%. The City's annual

**City of Lexington, Texas**  
**NOTES TO THE FINANCIAL STATEMENTS, Continued**  
**September 30, 2021**

principal payments are \$4,095. As of September 30, 2021, the net book value of the asset is \$18,188.

**E. Other Long-term Liabilities**

The following is a summary of changes in the City's other long-term liabilities for the year ended. The City uses the general fund and utility fund to liquidate compensated absences.

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Reductions</u>	<u>Ending Balance</u>	<u>Amounts Due Within One Year</u>
<b>Governmental Activities:</b>					
Compensated Absences	\$ 15,558	\$ 10,906	\$ (17,930)	\$ 8,534	\$ 7,681
<b>Total Governmental Activities</b>	<u>\$ 15,558</u>	<u>\$ 10,906</u>	<u>\$ (17,930)</u>	<u>\$ 8,534</u>	<u>\$ 7,681</u>
<b>Other Long-term Liabilities Due in More than One Year</b>				<u>\$ 853</u>	
<b>Business-Type Activities:</b>					
Compensated Absences	\$ 4,596	\$ 9,695	\$ (5,370)	\$ 8,921	\$ 8,029
<b>Total Business-Type Activities</b>	<u>\$ 4,596</u>	<u>\$ 9,695</u>	<u>\$ (5,370)</u>	<u>\$ 8,921</u>	<u>\$ 8,029</u>
<b>Other Long-term Liabilities Due in More than One Year</b>				<u>\$ 892</u>	

**F. Interfund Transactions**

Transfers between the primary government funds during the 2021 year were as follows:

<u>Transfer In</u>	<u>Transfer Out</u>	<u>Amounts</u>
Utility Fund	General Fund	5,697
	<b>Totals</b>	<u>\$ 5,697</u>

Amounts transferred between funds relate to amounts collected by the water & sewer fund for various capital expenditures and transfers between funds for incurred or planned expenses.

The compositions of interfund balances as of the year ended September 30, 2021 were as follows:

<u>Due from component unit:</u>	<u>Due to primary government EDC</u>
General	\$ 12,000
<b>Total</b>	<u>\$ 12,000</u>

**City of Lexington, Texas**  
*NOTES TO THE FINANCIAL STATEMENTS, Continued*  
 September 30, 2021

**G. Restricted Net Position / Fund Balance**

The City records fund balance restrictions on the fund level to indicate that a portion of the fund balance is legally restricted for a specific future use or to indicate that a portion of the fund balance is not available for expenditures.

The following is a list of restricted net position / fund balance of the City:

	<b>Governmental Activities</b>
Restricted for:	
* Municipal court	\$ 57,439
<b>Total</b>	<b>\$ 57,439</b>

\*Restricted by enabling legislation

**V. OTHER INFORMATION**

**A. Risk Management**

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets, errors and omissions; and natural disasters for which the City participates along with over 2,800 other entities in the Texas Municipal League's Intergovernmental Risk Pools. The Pool purchases commercial insurance at group rates for participants in the Pool. The City has no additional risk or responsibility to the Pool outside of the payment of insurance premiums. The City has not significantly reduced insurance coverage or had settlements which exceeded coverage amounts for the past three years.

**B. Contingent Liabilities**

Amounts received or receivable from granting agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amounts of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Claim liabilities are calculated considering the effects of inflation, recent claim settlement trends, including frequency and amount of payouts, and other economic and social factors.

**City of Lexington, Texas**  
*NOTES TO THE FINANCIAL STATEMENTS, Continued*  
September 30, 2021

**C. Arbitrage**

The Tax Reform Act of 1986 instituted certain arbitrage consisting of complex regulations with respect to issuance of tax-exempt bonds after August 31, 1986. Arbitrage regulations deal with the investment of tax-exempt bond proceeds at an interest yield greater than the interest yield paid to bondholders. Generally, all interest paid to bondholders can be retroactively rendered taxable if applicable rebates are not reported and paid to the Internal Revenue Service at least every five years for applicable bond issues. Accordingly, there is the risk that if such calculations are not performed correctly, a substantial liability to the City could result. The City does anticipate that it will have an arbitrage liability and performs annual calculations to estimate this potential liability. The City will also engage an arbitrage consultant to perform the calculations in accordance with Internal Revenue Service's rules and regulations if indicated.

**D. Pension Plans**

Texas Municipal Retirement System

**1. Plan Description**

The City of Lexington, Texas participates as one of 895 plans in the nontraditional, joint contributory, hybrid defined benefit pension plan administered by the Texas Municipal Retirement System (TMRS). TMRS is an agency created by the State of Texas and administered in accordance with the TMRS Act, Subtitle G, Title 8, Texas Government Code (the TMRS Act) as an agent multiple-employer retirement system for municipal employees in the State of Texas. The TMRS Act places the general administration and management of the System with a six-member Board of Trustees. Although the Governor, with the advice and consent of the Senate, appoints the Board, TMRS is not fiscally dependent on the State of Texas. TMRS's defined benefit pension plan is a tax-qualified plan under Section 401 (a) of the Internal Revenue Code. TMRS issues a publicly available annual comprehensive financial report (ACFR) that can be obtained at [www.tmr.com](http://www.tmr.com).

All eligible employees of the city are required to participate in TMRS.

**2. Benefits Provided**

TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the city, within the options available in the state statutes governing TMRS.

At retirement, the benefit is calculated as if the sum of the employee's contributions, with interest, and the city-financed monetary credits with interest were used to purchase an annuity. Members may choose to receive their retirement benefit in one of seven payments options. Members may also choose to receive a portion of their benefit as a Partial Lump Sum Distribution in an amount

**City of Lexington, Texas**  
**NOTES TO THE FINANCIAL STATEMENTS, Continued**  
**September 30, 2021**

equal to 12, 24, or 36 monthly payments, which cannot exceed 75% of the member's deposits and interest.

The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS. Plan provisions for the City were as follows:

	<u>Plan Year 2018</u>	<u>Plan Year 2019</u>	<u>Plan Year 2020</u>
Employee deposit rate	6%	6%	6%
Matching ratio (city to employee)	1.5 to 1	1.5 to 1	1.5 to 1
Years required for vesting	5	5	5
Service retirement eligibility (expressed as age / years of service)	60/5, 0/25	60/5, 0/25	60/5, 0/25
Updated service credit	100%	100%	100%
Annuity increase (to retirees)	70% of CPI	70% of CPI	70% of CPI

**Employees covered by benefit terms**

At the December 31, 2020 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	9
Inactive employees entitled to but not yet receiving benefits	20
Active employees	<u>13</u>
<b>Total</b>	<b><u>42</u></b>

**3. Contributions**

The contribution rates for employees in TMRS are either 5%, 6%, or 7% of employee gross earnings, and the City matching percentages are either 100%, 150%, or 200%, both as adopted by the governing body of the City. Under the state law governing TMRS, the contribution rate for each city is determined annually by the actuary, using the Entry Age Normal (EAN) actuarial cost method. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Employees for the City of Lexington, Texas were required to contribute 6% of their annual gross earnings during the fiscal year. The contribution rates for the City of Lexington, Texas were 8.82% and 9.82% in calendar years 2020 and 2021, respectively. The City's contributions to TMRS for the year ended September 30, 2021, were \$49,089, and were equal to the required contributions.

**City of Lexington, Texas**  
*NOTES TO THE FINANCIAL STATEMENTS, Continued*  
September 30, 2021

**4. Net Pension Liability (Asset)**

The City's Net Pension Liability (Asset) was measured as of December 31, 2020, and the Total Pension Liability (TPL) used to calculate the Net Pension Liability (Asset) was determined by an actuarial valuation as of that date.

**Actuarial assumptions**

The Total Pension Liability in the December 31, 2020 actuarial valuation was determined using the following actuarial assumptions:

Inflation	2.5% per year
Overall payroll growth	2.75% per year
Investment Rate of Return	6.75% net of pension plan investment expense, including inflation

Salary increases are based on a service-related table. Mortality rates for active members are based on the PUB(10) mortality tables with the Public Safety table used for males and the General Employee table used for females. Mortality rates for healthy retirees and beneficiaries are based on the Gender-distinct 2019 Municipal Retirees of Texas mortality tables. The rates for actives, healthy retirees and beneficiaries are projected on a fully generational basis by Scale UMP to account for future mortality improvements. For disabled annuitants, the same mortality tables for healthy retirees is used with a 4-year set-forward for males and a 3-year set-forward for females. In addition, a 3.5% and 3.0% minimum 16 mortality rate is applied, for males and females respectively, to reflect the impairment for younger members who become disabled. The rates are projected on a fully generational basis by Scale UMP to account for future mortality improvements subject to the floor.

The actuarial assumptions were developed primarily from the actuarial investigation of the experience of TMRS over the four-year period from December 31, 2014 to December 31, 2018. They were adopted in 2019 and first used in the December 31, 2019 actuarial valuation. The post-retirement mortality assumption for Annuity Purchase Rates (APRs) is based on the Mortality Experience Investigation Study covering 2009 through 2011 and dated December 31, 2013. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income in order to satisfy the short-term and long-term funding needs of TMRS.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by

# City of Lexington, Texas

## NOTES TO THE FINANCIAL STATEMENTS, *Continued*

September 30, 2021

adding expected inflation. In determining their best estimate of a recommended investment return assumption under the various alternative asset allocation portfolios, GRS focused on the area between (1) arithmetic mean (aggressive) without an adjustment for time (conservative) and (2) the geometric mean (conservative) with an adjustment for time (aggressive). The target allocation and best estimates of real rates of return for each major asset class in fiscal year 2021 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return (Arithmetic)
Global Equity	30.0%	5.30%
Core Fixed Income	10.0%	1.25%
Non-Core Fixed Income	20.0%	4.14%
Real Return	10.0%	3.85%
Real Estate	10.0%	4.00%
Absolute Return	10.0%	3.48%
Private Equity	10.0%	7.75%
Total	100.0%	

### Discount Rate

The discount rate used to measure the Total Pension Liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability.

### Sensitivity of the Net Pension Liability (Asset) to Changes in the Discount Rate

The following presents the net pension liability of the City, calculated using the discount rate of 6.75%, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.75%) or 1-percentage-point higher (7.75%) than the current rate:

1% Decrease 5.75%	Current Single Rate Assumption 6.75%	1% Increase 7.75%
\$ 269,722	\$ 15,385	\$ (191,867)

*NOTES TO THE FINANCIAL STATEMENTS, Continued*  
September 30, 2021

**5. Pension Expense (Income) and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

For the year ended September 30, 2021, the City recognized pension income of \$12,534.

At September 30, 2021, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<b>Deferred Outflows of Resources</b>	<b>Deferred (Inflows) of Resources</b>
Difference between projected and investment earnings	\$ -	\$ (50,795)
Differences between expected and actual economic experience	-	(74,209)
Changes in actuarial assumptions	2,916	-
Contributions subsequent to the measurement date	36,493	-
<b>Total</b>	<b>\$ 39,409</b>	<b>\$ (125,004)</b>

The City reported \$36,493 as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date that will be recognized as a reduction of the net pension liability for the year ending September 30, 2022. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

<b>Year ending December 31,</b>	
2021	\$ (58,758)
2022	(29,102)
2023	(31,233)
2024	(2,995)
2025	-
Thereafter	-
<b>Total</b>	<b>\$ (122,088)</b>

*NOTES TO THE FINANCIAL STATEMENTS, Continued*  
September 30, 2021

**E. Restatement**

Due to corrections to accrued liabilities, the City restated its beginning fund balance and net position within the general fund and governmental activities.

The restatement of beginning fund balance/net position is as follows:

	<u>Governmental Activities</u>	<u>General</u>
Prior year ending net position/fund balance, as reported	\$ 1,139,772	15,636
Correction to accrued liabilities	7,833	7,833
Restated beginning net position/fund balance	<u>\$ 1,147,605</u>	<u>\$ 23,469</u>

**F. Subsequent Events**

On November 5, 2021, the City purchased a utility department vehicle for \$37,494, in which the City made a down payment of \$25,000. The City entered into a one year promissory note for the remaining \$12,494. The note has a maturity date of November 5, 2022 and an interest rate of 5.95%.

There were no other material subsequent events through April 25, 2022, the date the financial statements were issued.
